

# Security With PBWiki

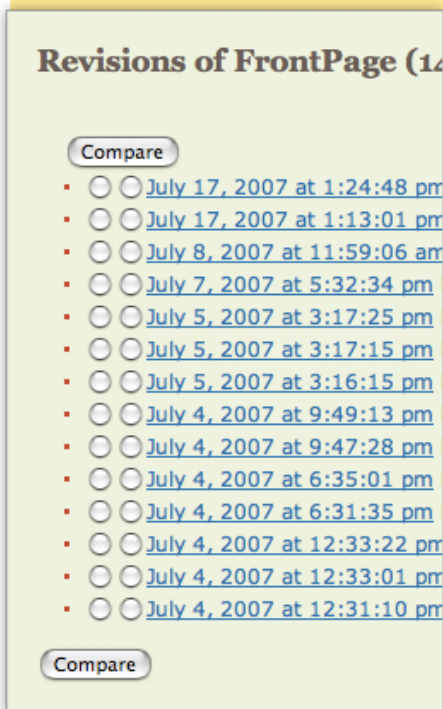

Q

How do I monitor my students?

A

If you're concerned about your students having the ability to contribute to your wiki, PBwiki makes it easy to promote positive online behavior and discourage inappropriate comments.

## Built in Accountability

Your PBwiki automatically saves every version of a page, so you can go back in time if needed.

Edits are time-stamped. You always know who made changes and when they were made.

## Monitor

PBwiki will notify you by email or RSS about each change made to your wiki. Since it's easy to undo any edits, you never have to worry about students making negative edits.

*PBwiki lets you create a free educational wiki in 30 seconds. (A wiki is a web page that multiple people can edit.) Use PBwiki to create your own safe online space where you and your students build a shared space to exchange files, collaborate on group projects, and share knowledge.*
